

# Welcome to the world of **ARTISANDS™** Sand Painting

## Includes:

- Colored sands
- Wooden picks
- Ready-to-peel patterns

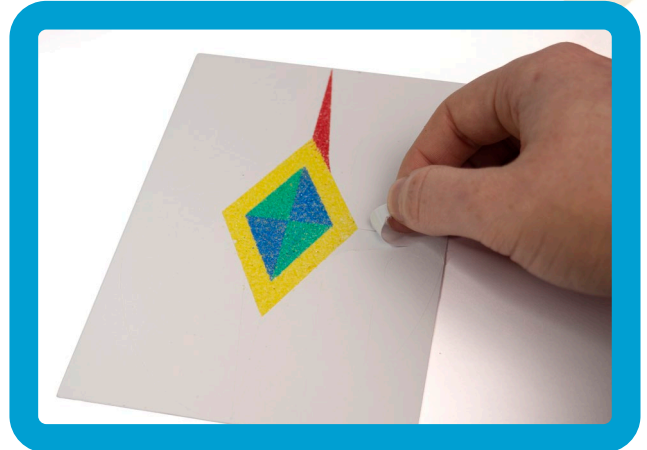

## You will need:

- Scissors
- Small cups or containers

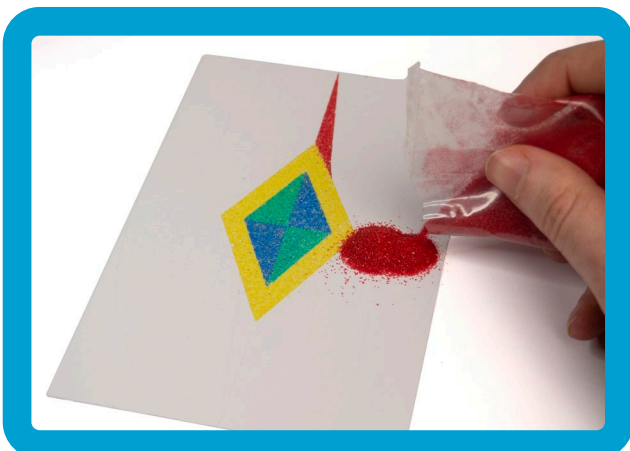

**PREPARE FOR HOURS OF FUN AND CREATIVITY AS YOU  
PEEL, POUR, PAT AND TAP YOUR WAY TO  
BEAUTIFUL, CREATIVE DESIGNS**

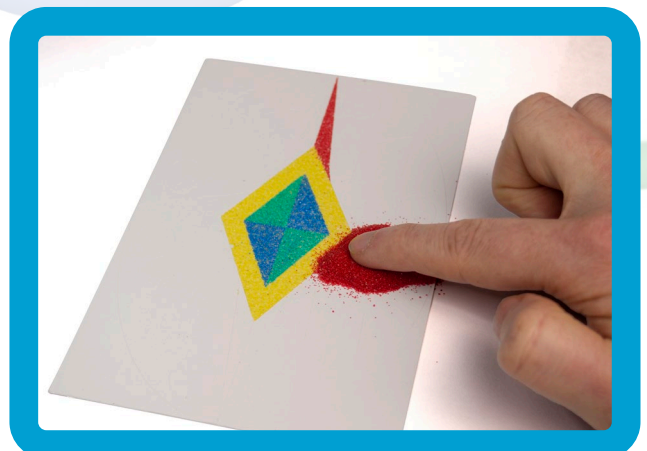

Open the sand packets by clipping off a small portion of the corner on the sand packet. Pour the content into a small cup or container.

Choose one Sandesign from the kit and gradually **PEEL** the top layer, one piece at a time, unveiling the sticky surface beneath.

**POUR** a sufficient amount of sand to ensure the adhesive surface is completely covered.  
**TIP: Start with the darker colors and end with the lighter ones for best results.**

Gently **PAT** the sand using your fingers to ensure complete coverage of the adhesive. Next, **TAP** any excess sand.  
**TIP: Experiment by mixing different colors to create your own unique blend!**
