

Modena Soft ~ Vintage Pendant

Designed by Trish Alger

(This is a great sticky-free clay.)

I liked the idea of a domino shaped pendant that was lightweight. I used my "pokey-tool" to push a hole through the domino shape.

Next step is to choose the perfect Vintage Christmas image.

Designed by Trish Alger

(Trace around your shape for the image to cut out.)

Gel medium works well to adhere your image to the blank.

(This mini set of mediums is a great way to sample a product or include in an artistic gift set.)

When the gel dries, use a metallic marker over the back and sides.

(Kid-friendly project.)

Glaze covers the image, glitter is added to the corners and more glaze is added to keep the glitter flakes together. Scrap wire was fashioned into a haphazard bail and a length of satin cord completed the necklace.
